## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 – 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Grimson et al ("Using adaptive tracking to classify and monitor activities in a site", Proceedings 1998 IEEE Conference on Computer Vision and Pattern recognition, Santa Barbara, CA, 1998 June 23 – 25; pages 22 – 29).

In regards to claims 1 and 11, the two independent claims are rejected for the same reasons as previously presented in the first office action, combined with the reasons for rejection of claims 9 and 18, respectively, as this material has been moved up into the independent claims. Please see the response to arguments for details on why "physically marked landmark points" is covered in Grimson.

The remainder of the claims is rejected for the same reasons previously presented in the first office action.

### ***Response to Arguments***

3. Applicant's arguments filed 07/26/05 have been fully considered but they are not persuasive.

4. The applicant's arguments come down to the phrase "physically marked landmark points".

The examiner suspects that the applicant has in mind that a landmark point is for example a giant "X" drawn on the ground, which is used to mosaic images. However the phrase "physically marked landmark points" can, when interrupted broadly, comprise of much more. Grimson uses moving objects as landmark points. These points are physically marked in that the method and system marks the objects by identifying moving objects.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
